Summary

As a committed Java Developer, I am keen to contribute my foundational expertise in Java and object-oriented programming to a dynamic development team.

Experience

Xciencia   **Oct 2024- March 2025**
Trainee Software Developer   Bangalore

- Deveoped and deployed a QR Code-Based Attendance System using Spring Boot(REST API), MYSQL (database), and React Js (frontend), with a focus on back-end development and secure JWT-based authentication.
- Implemented Spring Security with JWT-based Authentication to secure the application by providing stateless, token-based access control.
- Deployed the project by using Render website and Docker to generate docker images that pushed in docker hub.
- Used Vercel to deploy the front-end of my project by using the github repository and connected the backend and frontend by generating the URL at the both ends.
- Worked on the tickets assigned by the team lead on a project management tool named ClickUp.
- Contributed to multiple features in a team project hosted on GitHub, actively participating in branching strategies, merging pull requests, and resolving conflicts.

Projects

QR Code based Attendance Marking System   **November 2024 -**

- Developed the QR Code based Attendance Marking System using Spring Boot (REST API), MY SQL for database, React Js for frontend and JWT based Authentication for security
- This project helps to mark the attendance of the user by scanning the QR code that containing organization location that enables to mark the attendance only if the user is within the organization premises.
- The admin can be able to manage users, view the attendance, manage the leave requests of the user that they have applied.
- This project makes the user ease to mark their attendance in their organization, with secured authentication.

Education

Swarnandhra college of engineering and technology   **May 2024**
Master in Computer applications   Master's
8.28

Sri siddhartha degree   **May 2021**
college BSc (Computer   Bachelor's
Science) 8.1

Technical Skills

Core Java
● ● ● ● ●
core concepts, DSA with Java

Spring
● ● ● ● ●
Spring Boot, Restful API, Spring REST

Frontend
● ● ● ● ●
HTML, CSS, Js, React Js

Backend
● ● ● ● ●
MySQL, Java Programming
